

## DAWSON STUDENTS HEAR CANDIDATES AT MASS MEETING

**Crowd of 300  
Hear 6 Nominees;  
Balfour Presides**

By JOHN FOX  
St. Johns, Oct. 10.—A mass meeting attended by 200 students, was held in the Theatre of Dawson College tonight, at which the six candidates in the election, taking place Friday, Oct. 12, between 9.00 a.m. and 2.30 p.m., presented their platforms. R. J. Balfour, president of the Student Council, was in the chair.

Running for president of the Dawson College Student Group, J. A. Cadloff and C. G. Thompson were introduced by L. Gotthell and Norman Parsons respectively. Cadloff, who, according to his sponsor, has a fine war record, entered B.Sc. 1 last January, was made one of two class representatives, was membership secretary of the student veteran society and was nominated to the housing committee for Dawson College. In his platform he emphasized the need for self-government at Dawson, for study rooms, for a canteen, a campus housing and messing committee, lounge and library facilities, and an athletic committee.

Thompson, who in his sponsor's words, also has a fine record with the Air Force, entered the January class and showed himself to be extremely interested in the welfare of his fellow students. Outlining his program, he emphasized the need for financial reforms for veterans, more facilities for extra-curricular activities, and pledged himself to serve the interests of the student body to the best of his ability.

Edward de Jean and James Spencer, nominees for the position of President of first year Engineering were introduced by their sponsors. B. Rosenbloom and Harvey Walford. De Jean, a veteran, was founder of the Canadian Negro Youth Movement, chairman of the Veteran's Rehabilitation Committee of McGill, and Treasurer of the Student Veterans Society. In his platform he reminded the students of the many pressing problems facing first year Engineers and pledged himself to carry out the will of those whom he would represent. The important needs, in his opinion are those of a Student Executive.

## Campus Building Home of I.L.O.

**Former Geneva Staff  
Carrying on Work;  
Conference in Paris**

By AL TUNIS  
Every day, several hundred McGill students pass by a mysterious building on University street. Very few know about the activity that goes on behind its closed doors. This building, with its small brass name-plate, houses the Montreal office—and temporary head office—of the I.L.O.—International Labor Organization.

The International Labor Organization arose after the First World War, out of a growing realization by workers and governments, that world-wide labor conditions could only be improved by international agreement. Accordingly, the Peace Treaties of 1919 officially created the I.L.O., with its membership consisting of states. Up to the beginning of the Second World War, the I.L.O. boasted a membership of 65 States.

The three main divisions of the Organization consist of: The International Labor Office, which acts as a publishing house, and a world information centre; the governing body, made up of 16 government representatives, eight employer representatives and eight labor representatives; and finally the International Labor Conference, the world parliament for labor and social questions.

A conference is held at least once

**Dean D. Thomson  
Represents McGill  
At College Talks**

**James Unable to Go  
To University Parley  
In North Carolina**

Dean D. L. Thomson of the faculty of graduate studies and research at McGill left yesterday for North Carolina where he will represent the university at the 46th annual conference of the Association of American Universities. Starting today, a three day conference will be held at Duke University, Durham, N.C., and the University of North Carolina, Chapel Hill, N.C.

Principal F. Cyril James, who also planned to attend, was unable to go due to pressure of university business.

Delegates representing 34 of North America's leading centres of post-graduate studies, of which Toronto and McGill are the Canadian representatives, will be welcomed at Durham by Duke University's President R. L. Flowers and University of North Carolina's President F. P. Graham.

The three day conference will feature discussions at Durham and Chapel Hill. Opening talks are to be based on "A National Policy of Scientific Research" and "The Veteran in Graduate and Professional Schools" which will be held at Duke University.

A convocation is to take place at the University of North Carolina on the morning of Oct. 12 with Harvard's president James B. Conant giving an address on "The Future of American Universities." Discussed on Page Four

**Dr. Fleure to Lecture  
In Moyse Hall Tonight**

Today, in Moyse Hall, at 8.15 p.m., "Race and Language among European Peoples", the first in a series of two public lectures will be given by Dr. H. J. Fleure, F.R.S., Professor Emeritus of Geography, Manchester University. The second address, "Geographical Foundation of European Nationalism", will be given tomorrow, Friday, Oct. 12, at 8.15 p.m., also in Moyse Hall.

These lectures by the eminent British geographer are to be given under the auspices of the new Geography Department. When interviewed, Dr. Fleure praised McGill for the establishment of teaching in geography. He also emphasized the great need for racial harmony in the world today.

Referring to these lectures, Professor George Kimble, of the Geography Department, said that all McGill students should find them of great value and interest.

## Workings of Redpath Outlined In Series of Library Lectures

by SOPHIE SENIUK

Sixteen students were shown the workings of the Redpath Library yesterday afternoon when Miss Trenholme conducted one of the series of individual lectures. The Librarian explained that the purpose of the lecture was to acquaint the incoming students with the cataloguing and loaning of books. The lectures are scheduled to take place each day throughout the month of October, which gives students interested ample time to gain some information about library operations and requirements.

The Redpath Library, with its collection of some 400,000 books, forms the nucleus of book indexing and cataloguing on the McGill Campus. This means that every book in the Carnegie, Law, or Engineering Libraries is catalogued in Redpath, although the books themselves are found in the respective reference libraries. The catalogue drawer is a dictionary catalogue containing author, subject heading, or title cards. These cards con-

## Daily Lecture Today In Union Ballroom

The next in the series of Lectures on Journalism given by the staff of the McGill Daily will be held this afternoon in the Union Ballroom at 5:05 p.m. The speaker will be the editor-in-chief of the Daily, The lecture will deal with "News Style and Attitude" in the writing of articles and stories.

The talk will be repeated for the benefit of the Dawson College boys out in St. John's on Monday evening at 8 p.m. in Room 2 of building No. 47.

The next of the Daily lectures will be on Monday afternoon when the editor-in-chief will again address the meeting.

## McGill Receives Gifts and Grants Valued at \$80,000

Gifts, grants, and bequests to the University totalling almost \$80,000 have been announced in a release from the principal's office. The donations include gifts of money, paintings, books, a lot, and a scoreboard for the Percival Molson Memorial Stadium.

Royal Bank of Canada: A fellowship for Dr. Juan C. Barsantini, of Montevideo, Uruguay, \$800.

Mrs. Florence C. Anglin: Donation to maintain the "Anglin Bursary" in engineering, \$200.

Province of Quebec: Second instalment of annual grant: Neurological Institute, \$5,000; School for Teachers, \$3,750; Department of Education, \$2,500; Normal School, Macdonald College, \$5,000; School of Commerce, \$1,750; grant for general purposes, \$6,250; and special grant for general purposes, \$25,000.

Province of Quebec, Department of Agriculture: Payment on account of grant of \$5,800 for provincial pasture project, \$2,900.

Knight of Pythias, Past Chancellors Association: Donation for scholarship in the social sciences to students resident on the Island of Montreal, \$300.

Shawinigan Chapter, I.O.D.E.: Donation for two scholarships, \$200. City of Montreal: Annual grant to Montreal Neurological Institute, \$15,000.

Phillips Industries Limited: Grant to the Department of Physics for special apparatus, \$715.

Walter M. Stewart: Donations to maintain at Macdonald College the W. M. Stewart Director of Athletics Scholarship, \$800, and the W. M. Stewart Athletics Fund, \$400.

National Research Council of the U.S.A.: First quarterly instalment of grant of \$2,300 for research in endocrinology under the direction of Dr. R. D. H. Heard, \$575.

Provincial Chapter of Quebec, I.O.D.E.: Donation to maintain bursaries in agriculture, \$200.

Department of National Health and Welfare: One-third of a grant of \$2,000 for research under the direction of Dr. W. D. McFarlane at Macdonald College, \$666.

Consolidated Mining and Smelting Company Limited: Donation to maintain the Cominco Fellowship for session 1945-46, \$1,200.

Miss Katherine McLennan: Donation to the endowment fund of the Hugh McLennan Memorial Scholarship in Architecture, \$1,000.

John Wyeth & Brother (Canada) Limited: Grant for special research

## Shepherd, New Cheerleader Has Novel Plans for Job

**Torch-light Parade Scheduled for Tuesday Football  
Game; but Help of Students  
Is Needed**

RAH-RAH-RAH. Meet our new and ambitious cheerleader, Roy Shepherd. Roy, who has his own ideas about cheerleading, has launched into his new job with the vim and gusto of a born noise-maker. No sooner was he elected to perform his boisterous duties, than he whirled into action.

In his short 19 years of life, Roy has had a very active and busy time. At West Hill High, Roy was kept well away from studies by water polo, soccer and basketball. Arriving at good old McGill in 1942, he didn't waste any time, and was soon occupied with the Athletics Council. This not being enough for our human megaphone, he had to go and get himself made manager of the McGill swimming team in 1943. And for recreation, Roy dabbled in water-polo, of which he was also manager.

All the time that this was going on, "Shep" managed to find a few hours here and there to work on the staff of the N.D. G. "Y," as well as being on the

Boys' Work Committee of the same organization.

In 1943, Roy joined the Navy, and saw 18 months service as a

(McGill Daily—Peter Hall)

ROY SHEPHERD  
sub-Lieut. When the war ended, "Shep" decided to continue his education on discharge, and

## McGill Grad of 1909 Returns as Professor

Professor C. A. Robb, B.Sc., B. Eng., a McGill graduate of 1909, has this year come back to his Alma Mater as a professor of Mechanical Engineering.

"My greatest delight in returning to McGill comes from the pleasure of being associated with old friends at the University," Professor Robb told the Daily reporter. "The outstanding changes which impressed me greatest," he continued "are the development of the institutions associated with McGill, and the advent, since our time, of the college residences and dormitories which enrich student life."

Professor Robb was Professor of Mechanical Engineering for a session at the University of Alberta, when in 1939 the War Supply Board called him to Ottawa as chief of the Gauge Division, where he had worked during the last war. In 1940-41 he was Power Consultant of the Department of Munitions and Supplies. Immediately previous to his present position Professor Robb was assistant manager of the Power Department of the Aluminum Company of Canada.

## Record of McGill Is Reviewed During Fire Prevention Week

**April 1907 Witnessed the Destruction of MacDonald  
Engineering Building and the  
Medical Building**

This being fire prevention week in Canada, it is appropriate to glance over McGill's record and see how fires, which might have been prevented, have caused considerable damage to buildings, have destroyed invaluable documents, and for a time threatened to diminish the university.

April, 1907, was truly a disastrous month for McGill. Within eleven days of each other, two fires broke out, one destroying the MacDonald Engineering Building, the other the McGill Medical School and Museum.

At 4 a.m. April 15, 1907, flames were suddenly discovered shooting out of the Engineering Building, the alarm was given, but by the time the fire engines arrived, the strong wind had spread the flames throughout the building. However, the firemen did a marvellous job of saving the Workman Building behind the Engineering Building which was threatened several times by flames. It took the Fire Department 2½ hours to bring the fire under control, but by that time the roof and walls had collapsed, and almost all of the building except the ground floor was totally destroyed. All that is, except the exam papers, which some professor had removed from the building previously, perhaps from intuition.

Books go out for two weeks with a possibility of renewal. The reserve books are limited to strict reserve (or overnight) and 48 hours. This is necessary to insure a fair distribution among the student body, as the same book may be demanded by a large number of students, and for this reason the reserve books are subject to a fine. When read in the library, they

## Architects' Society Hold First Meeting

With an eye to stimulating public interest in architecture, The Architectural Undergraduate Society held its first meeting Wednesday afternoon, Mr. Ray Affleck, president, presided with Miss Sheila Bailey as vice-president.

Arnold, Shrier was elected as sports representative with power to manage all inter-faculty sports.

Election of Rudolf Papanek as publicity chairman followed. He will try to promote architecture by publicizing it in the local newspapers, and in this way to acquaint the public with the society's projects.

With fourteen prospective architects out at Dawson the Undergrads hope to tour the college from an architectural viewpoint. This will offer valuable experience, as the buildings are ultra-modern.

E. Halfhide was elected Architects' representative on the Students' Executive Council.

To improve the students' public speaking the Undergrads will hold discussion meetings where talks will be presented on various topics.

## Cheerleader Corps Meets Today in Union

An organization meeting of the newly-formed Cheerleader Corps under the direction of Roy Shepherd, will be held today at 5 p.m. in the Music Room next to the Ball Room in the McGill Union.

This meeting was to be held on Wednesday, but due to the very small turnout, had to be postponed. Everybody who is interested is invited to attend this meeting and become a leader of the cheering throngs at football and hockey games, stated the organizer.

Because this is the first time since the beginning of the war that such a cheer squad has been organized, it is expected that there will be a large assembly of students at this meeting.

## Faculty Changes Are Announced By University

The Principal's Office announced yesterday the following staff changes: Frances Alexander, B.A., M.A., Ph.D., from lecturer to Asst. Professor of Psychology; A. M. Fraser, M.D., C.M., from Lecturer to Asst. Professor of Pharmacology. Increases in salary went to A. Robert Gorge, Lecturer in Public Speaking for additional lectures due to increased enrollment in Engineering, Miss Anna Denton, Lecturer in Spanish and Louis d'Hauteville, Asst. Professor of French on return from War Service.

Resignations: Hyman Kaufman, Demonstrator in Physics; Malcolm B. Mackenzie, Demonstrator in Pathology transferred to R.V.C. Hospital staff; F. S. Panter, Sessional Lecturer in Physics; A. F. Childs, Asst. Professor of Radiology; G. H. Benham, Asst. Professor in Agricultural Chemistry; D. G. Chapman, Demonstrator and High School Teacher of Chemistry resigned to take the place of R. A. Pringle; Joan Jackson, Lecturer in English.

Appointed as Assistants for session in English were Elizabeth Davies, B.A., (Univ. of Virginia), Agnes P. Duncan, B.A. (McMaster), M.A. (McGill); Constance B. Howe, B.A. (McGill); Joan Philpott, B.A. (McGill); Allen Thompson, B.A. (McGill). Appointed as Lecturer at the session was George Falle, M.A. (McGill). Leonore Jenkins, M.B. (Middlebury) was made a Lecturer in Spanish, and Rudolph Rojo received a Teaching Fellowship in Spanish.

A Carpenter Fellowship was awarded to Paul Weisz, who will teach Zoology. Percy Black, B.A.; Charles Shagass, B.A., M.A., Katharine Silver, B.A.; and Mrs. Edith B. Willis, B.A., were all appointed Assistants for the session at Psychology. Wilbert G. Bowen, B.Sc., Ph.D., was appointed as a Sessional Lecturer at Chemistry.

Appointed as Demonstrators for the session at Chemistry were the following: W. G. Bowen, B.Sc., Ph.D., R. K. Brown, B.Sc., M.Sc.; I. M. Cabot, B.Sc.; H. L. Christie, B.Sc., B.Ed.; D. E. Douglas, M.Sc., Ph.D.; K. W. Downes, B.Sc., M.Sc.; Norman Epstein, B.Eng., H. M. Macfarlane, M.Sc., D. J. Morantz, B.Sc., and M. J. Smith, B.Sc.

## Beatty Hall Is New Residence; Official Annex of Douglas Hall

By BILL ARCHER

Quietly and without fanfare, a new McGill residence for men is coming into being, practically on the campus of the University. Located at the corner of Milson and University streets, Sir Edward Beatty Memorial Hall provides accommodation for seventy students. The United Theological College occupied the building before the war, but they will be moving into the northern wing in January.

During the war the Hall was used first by the Air Force and then later as a Military Hospital. A student who was stationed in the building when the Air Force was here, has expressed a strong preference for the present arrangement. McGill purchased the building during the past summer and the staff have been very busy putting the interior into shape for the residents. Not all of the work has been completed, even at this date, and many anxious moments occurred during the week of registration. Some of the rooms had only a table and bed

## NEW ORGANIZATION HAS REGISTRATION FOR ALL STUDENTS

**McGill Section  
Red Cross Corps  
To Be Disbanded**

**Ex-Members Urged  
To Carry On Work  
In One of City Corps**

The McGill Detachment of the Canadian Red Cross Corps will disband this year, it was announced last night after deliberation between McGill and Red Cross Corps authorities.

This decision has been taken due to the fact that a McGill corps which demands uniformed drill, and other military knowledge and procedure as part of its training seems inadvisable during peacetime. The work of the corps can be carried on effectively by the McGill Red Cross Society, which all McGill students are eligible to join, and by the former veterans of the demobilized Red Cross Corps.

The work which must be carried on has not diminished with the disbanding of the corps, and former members are urged to join one of the City Corps, stated the announcement. "The Transport, Nursing Auxiliary, and Office and Food administration Corps are open to former cadets of the McGill Detachment. Military trains must still be met, war brides welcomed to this country, hospitals visited," stated Annalee Scherzer, from whom further information regarding Red Cross work may be obtained in the Women's Union Room in R.V.C.

"The McGill Corps played an important part in the humanitarian work of the Red Cross," she continued. "All recruits were required to pass a basic training course which included First Aid, Military Law, map reading and drill, on the completion of which cadets gave such service as their college work permitted, and many worked full time during the summer months."

## McIntosh Will Outline Courses to Pre-Meds

An outline of the courses to be studied by pre-meds, and the regulations governing the admission of students to Medicine is the subject of an address to be given by Dr. McIntosh, secretary of the Faculty of Medicine, at the opening meeting of the Pre-Medical Society, to-day at 5 p.m., in Room 250 of the Biological Building.

Bill Blue, president of the society, will announce the program for this session. This will include further addresses by prominent doctors, as well as social activities. All pre-medical students are invited to attend this meeting, and veterans are especially welcome, stated the executive.

**Dances, Festivals,  
Activities for All  
To Be Arranged**

McGill students will have their first opportunity to get behind the newly-formed Red and White Society tomorrow when the Red Wings distribute membership cards at all major campus buildings.

Sponsored by the Students Executive Council, the organization is being formed to promote activities of interest to the campus as a whole and the hope of the organizing committee is that every student will become a member.

After registration, all the people will be divided into teams of either 10 or 20, and each team will have a captain, who will be elected to represent it on an executive council. This council will in turn elect a committee whose purpose will be to act as the main executive of the Red and White Society. The committee will organize shows and assign jobs to various members of the Society.

Every one who joins the Red and White Society (and as many students as possible are urged to become members), will have a part in the activities—organizing and helping to arrange the football dances, tea dances, and basketball festivals, and the many other social functions associated with the McGill Intercollegiate athletic program. There will be something for every member to do, for example, when dances are being put on. The dance hall will

Continued on Page Four

## Veterans' Society Discusses Plans

**Constitution, History  
Outlined at Dawson;  
Petition Formulated**

"There is a need on the part of the veterans for clear and unprejudiced thinking—we are older and more mature people than the average student at McGill," an executive member of the Veterans' Society said at a meeting of the McGill Student Veterans' Society held on Tuesday evening at the theatre in Dawson College to acquaint the veterans of the college with the society and its functions. The meeting was attended by over 250 veterans.

The constitution of the Society was read and discussed and achievements to date were outlined. The society was responsible for the organization of tutorials which benefited both veteran and non-veteran students; it supported protests against exclusion of Japanese students and dealt with the problem of bitter feeling toward veterans on the campus. It also took an important part in the post-war conference held in the spring.

Continued on Page Four

## WORLD EVENTS

OTTAWA: Quebec's Senator T. D. Bouchard attacked corporatism or fascism in the Upper House yesterday, and charged that the Duplessis government was offering this policy as a means of improving the standard of living of middle classes.

TOKYO: Japanese anti-imperialists staged a "Banzai" parade before Gen. MacArthur's headquarters yesterday, while Allied sleuths were probing into Japan's war money secrets.

LONDON: Prime Minister Attlee and Edward R. Stettinius, Jr., of the United States, yesterday dedicated their countries to making the United Nations world security organization work.

# Reds Eke 1-0 Win Over Blues in Heavy Grid Workout

## Porter Boots Singleton As Murray Hayes, Heron Pace Victorious Squad

### Norsworthy, Ballon Head Blues; Kerr Comments—"Satisfactory"

By HERB SHAYNE

Doug Kerr pulled the wraps off his Big Red Grid Machine last night when he sent his Red team into action against the Blues under Johnny Cloghessy, and saw his Red eke out, in every sense of the word, a 1-0 win over their opponents.

It appears that when Kerr splits a group of his best players into two squads he does an excellent job of making a fair match of it for the only scoring came on a second half single from the boot of Johnny Porter.

The Reds, quarter-backed by Bill Stronnach, had the edge on the play in the tilt but failed to smash through for more than the singleton against the stubborn and under-rated Blues.

## McGill, Dawson, Macdonald Hold Track Meet Soon

### Intercollegiate Team To Be Chosen From Winning Contestants

With a track which is drying up rapidly after the recent rains and a spell of fine weather expected prospective track men are asked to turn out to draw their equipment as soon as they can find the time from their studies.

It has been announced by the track manager, Bill Reid, that there is still a great opening for competitors in the field events, such as putting the shot, throwing the javelin and the discus. There are plenty of opportunities for any one who can run or participate in any way in a track meet, because there is one coming up between Dawson College, Macdonald and McGill some time in the very near future.

### LOTS OF EQUIPMENT

It has been emphasised that there is still a lot of equipment to outfit quite a few men who may wish to turn out for the track team. This year's squad will have quite a few promising runners in its numbers. Out practicing hard during the past few days have been quite a few promising men, among them Johnny Knecht and Clark Gillespie. Knecht is a sprinter who first tasted the thrill of breasting the tape in a relatively big meet last summer at Petawawa in the C.O.T.C. Gillespie is a middle distance runner, specialising in the half mile and made his presence felt last year in the intercollegiate telegraphic meet.

This meet which will be held between McGill and her satellites, Dawson and Macdonald, is to be the proving grounds for the intercollegiate runners, for the track team will be picked from those who are outstanding in their respective events. It is to be emphasised that there is still time for any one interested in track to train for this interfaculty meet.

## Squash Tourney Set for Oct. 13

Season's First Contest Starting at 2.00 P.M. Saturday Afternoon

Squash players, both expert and beginner, are requested by Manager Pete Landry to appear at the Gym this Saturday, Oct. 13th to play in the first squash event of the season. This is to be a knock-out event which will start at two p.m. A tournament of this type was held several years ago and was a success. It consists of a normal draw with a single twenty-one point game, the chief advantage being that the whole tourney can be played in one afternoon.

Landry added that it does not matter how inexperienced a player may be as handicaps will be given so that even beginners have a chance of winning. A consolation doubles draw has been planned for those unfortunates who are beaten in the first round. This means plenty of squash for all.

### USE COURTS

The manager requests that players get out and use the courts as much as possible for this is a good opportunity to meet fellow squash players. An entry list has been posted in the Men's Locker Rooms, but entries will be taken right up until playing time on Saturday. Those without requests can rent same from Jimmy, the lockerroom attendant.

## Field Hockeyists Practice Friday

M.W.S.A.A. Meeting To Be Held Monday; Freshettes Attend

Several items of interest to all co-eds have been announced by the president of the MWSSA and the field hockey manager. According to Manager Dot Peterson, Coeds are definitely going to play field hockey this fall. All those interested will be glad to know that practices are scheduled to start Friday afternoon at three o'clock in the upper field, she added.

### EQUIPMENT SUPPLIED

No equipment is necessary as it will all be supplied. The fundamentals will be explained to those aspirants who are new at the game. Readers are reminded that this provides a lot of fun for those energetic enough to take it up.

It is also announced by Phyllis Wood, President of the MWSSA that that association will hold its semi-annual meeting on Monday, October 15th at 4.30 p.m. in the R.V.C. Common Room. It was stressed by the President that this will be an important meeting for all, especially for the freshettes, as they will be electing their section representatives. Second year students who won their Junior "M" last year will be awarded them.

## SATISFACTORY

That's the one word Doug Kerr used to describe his Red vs. Blue game last night in preparation for next week's Hornet tilt.

## Kerr Squad Set for Hornets; Proceeds for War Memorial

With one strenuous practice session under their belts, Doug Kerr's grid squad will be hard at work the rest of the week in preparation for next Tuesday's exhibition match against the Hornets. All proceeds of the game are to go to the War Memorial Fund.

The co-coached Hornets, under the hands of Glen Brown and Bill Hughes, have done a complete about face after losing two of their first three games.

With their 10-3 win over the Hamilton Tigers Monday, the Hornets appear to have a team that will now proceed to go places in the Interprovincial Union. Previous to that victory, the Hornets had absorbed a 23-3 trouncing from the Argos and a 5-0 defeat against Hamilton in the opener here.

### YOUNG SQUAD

A young, peppery squad, the Hornets have a great deal in common with the McGill outfit. Both are relatively inexperienced, but have loads of the fighter's "moxie." The Hornets are the closest to being an amateur club that Montreal has had as her grid representative in the Big Four in many a year.

The players are no longer receiving outright pay, but have been given jobs by the directors of the clubs in various local industries and have settled very willingly for this arrangement.

Both teams have a raft of ex-service personnel, and the two teams appear to be in topshape for the contest.

### LONEY LOVELY

Heading the Hornets is 195 pound Don Loney, one of the better snaps to come out of this territory. In the backfield, Doug Harvey, Surphus, Garbarino, Frapp, and capable substitutes give the Stingers loads of balance.

The line is a heavy affair, with most of the boys tipping the beam at well over the two hundred mark. Ben Steek is one of the stalwart front liners, with Al Harvey holding down the end post.

The game is scheduled to get underway at 8.15 and will be preceded by a torchlight parade of McGill rosters up to the stadium. The new cheerleading corps will be in attendance, and it will emphasize the general colourful aspect of the whole affair.

## Chin-Yee Upsets Duff 6-3, 7-5 Colin Ramsey, Marien, also Win

## McGill Withdraws From Cage Loop

### Quit M.B.L. to Enter Intercollegiate League; Many Stars Present

The Montreal Basketball League announced yesterday that the McGill Redmen had decided to withdraw from the league this season. This decision was made due to the heavy intercollegiate schedule which the Redmen will have, however a few of the exhibition games which the Red and White hoopsters will partake in may include teams from the M.B.L.

### LAST YEAR'S TITLISTS

Last year the local college quintet finished on top in the local hoop league however lost out to Sir George Williams in the playoffs. One tilt with an M.B.L. squad is assured however since the Redmen play the M.B.L. champions for the Dods Cup, emblematic of the city cage championship, at the close of the season. The intercollegiate loop this year is sure to include Toronto, Queen's Western as well as the local crew.

Prospects for this year's Red and White cage team loom pretty bright. All of last year's starry team are back except Russ Harms and Leo Rosentzweig. Despite the fact that these two were the main guards there is plenty of new material around the campus to take their place.

### GREENBERG, HAYES STARS

Amongst the newcomers are Dave Greenberg and Murray Hayes. Greenberg, the Winnipeg cutie, starred for the Combines in the M.B.L. last year and wound up the

Harry Chin-Yee upset the dope bucket and the proverbial applecart in several different directions yesterday when he downed blonde Jimmy Duff 6-3, 7-5 in the quarter finals of the Men's Single Tennis Tourney. The smooth West-Indian and his tall opponent from Montreal West, who was third seeded in the tourney, played steady tennis all the way through.

Chin Yee went through the first set without too much trouble but Duff rallied in the second series of games and forced his opponent out to extra games before the match was decided. Chin Yee was rated the underdog in the match but according to insiders he has been over looked all along.

### JUNIOR CHAMP

The West Indian boy formerly held the Junior Championship of Jamaica as one leaf in his floral wreath of victory and appear to be headed for the later rounds of this tournament.

Colin Ramsey downed Leopold handily yesterday with 6-0 and 6-3 scores. The winner of last years tournament was in excellent shape and gave a good account of himself. In the other matches for the day, Broom Marien met an old opponent in Butch Hyndman and won out 6-1, 6-2.

Jack Spencer, one of the favourites to cop the crown beat Neil Lau 6-2, 6-4 while MacFarlane trimmed Villeneuve 6-2, 6-4. MacFarlane moves on to meet Johnny Wight in the next round of the tournament.

The Intercollegiate team has not yet been chosen but some announcement is expected soon. There will be no matches played today and the lists for tomorrow's games will be announced.

## Detroit Downs Doughty Cubs, 9-3 To Take World Series Honours

There's a new flag waving from the mast at Briggs Stadium today not seen in the Motor City since 1941 — its the pennant labelled "World Champions". Yes Sir, the Detroit Tigers pride of every car worker, whether he's striking or not, are the new baseball champions. Behind the crafty pitching of southpaw Hal Newhouser the Bengals yesterday walloped their National League opponents, the Chicago Cubs, 9-3.

### RICHARDS IN STAR ROLE

Climaxing the most thrilling world series in many years the American League champions bunched together nine hits to produce as many runs and although the Cubs banged out ten basehits, they only managed to cross the plate three times thanks to Newhouser's brilliance in the clutches. Star of the game, besides the Detroit southpaw, was Richards the Bengal catcher who lashed out two ringing doubles, one with the bases full, to drive in four runs. Prior to today's tilt Richards had only hit two singles however, if he never does another thing, he'll still always be remembered for coming through when it counts. A sad note was added to the game when it was announced that Richards had broken the small finger of his right hand in the eighth frame to become the first seriously casualty of the series.

### BOROWY TO SHOWERS

They'll be talking for a long time whether Jolly Cholly Grim made a mistake in sending his ace Hank Borowy out to start the game, especially since he had twirled in the last two games. For as soon as he had made his appearance the clawing Tigers greeted him with three straight singles by Webb, Mayo and Cramer. Borowy went to the showers at this point but all three scored later, with Richards' double with the bags crowded bringing in three runs to end a five run Detroit rally in the first.

HAL NEWHOUSER The Winnah

From then on it was pretty obvious that things wouldn't be so breezy in the Windy City as the Chicubs were doomed. Even a parade of six Cub twirlers failed to halt the Tiger onslaught as they went on to chalk up four more counters to put the game and series on ice.

Phil Cavaretta, who guards the first sack for the Cubs and who led the National League in batting during the season emerged as the leading hitter of the game and series as he went 3 for 4 yesterday and ended the series batting .423. Cavaretta, Hack and Cramer, who went 3 for 5 yesterday, all banged out 11 hits during the series while Don Johnson, the Cub keystone, led with 7 runs batted in.

### NEWHOUSER SERIES STAR

Although facing only three batters Borowy was charged with the loss, which adds another record to the already long list of new marks set this year. This left Borowy with a 2-2 record for the series and also gave him the distinction of being the first hurler to appear in Continued on Page Four

## Interfaculty Softball Commences Monday

It has been announced from the offices of Mr. Em Orlick that Interfaculty softball is to be resumed this year. All interested in playing this winter are urged to report to their faculty sports representatives or, better still, to sign their names on the lists which are posted on the notice boards of the respective faculties, according to the softball manager.

Games are to commence next Monday, the 15th, just after lecture hours. All these contests will be played on regulation diamonds at the Sir Arthur Currie Memorial Gymnasium and it has been announced that they will be supervised by umpires properly briefed before the game as to their duties, and who will naturally be impartial.

In past years interfaculty softball has been eagerly followed around the Campus, with a great number of players

signifying their wish to grace the diamonds once more. Last year, after a grueling season, Engineering 2 emerged as champions.

## Co-eds Offered Month In N.Y. As Guest Editors

### Collegians To Help With College Issue Of 'Mademoiselle'

The U.S. Women's magazine is once more offering to career-minded collegians with a flair for writing and journalism a month in New York as Guest Editor of Mademoiselle's August college issue. The editorship will be awarded to fourteen members of the magazine's College Board.

College Board members will complete four assignments during the school year giving a complete picture of the universities' social activities, new courses and new trends. The best reports will be awarded Victory Bonds and Stamps, all material used will be paid for, and, in addition, \$2.50 will be paid for each snapshot appearing in the magazine.

The guest editor will work with the regular staff members in helping to put out the August issue, their duties including posing for pictures, and modelling clothes for the College Clinic, for all of which they will be well paid.

Applications for position on the College Board will be judged early, and should be accompanied by a brief news story from the co-ed's home campus as well as a short biography and snapshot of the applicant.

### CAGE LOOP—p. 3

highest point-gatherer in the loop. Hayes played good ball for the Navy quintet last season and should prove a mighty asset to Coach Van Wagner's hoopers attending college here who just came out of the services. Also on tab is Pete Finlay who starred last year for West Hill's cage quintet, however due to the freshman rule he'll have to wait until next year before engaging in intercollegiate play.

In addition to the above there are the holdovers from last year's crew, namely George Davidson, Vic Curran, Sam Roth, Manny Shachter, Mort Goodwin, George Athens, with such a wide display of talent around this year's Red and White cage edition should be by far the best in many years and can be counted upon to give a good account of itself.

### PORTER—from p. 3

kick momentarily behind his line and dropped on it just before two Red linemen grabbed the ball.

Scoring halted at that point although there was a very brief flurry of excitement on the last play of the game when a Finlay to Hewgill forward for the Blues was just batted down by the alert Red tertiary.

With Hayes and Heron in the star roles for the Reds, Sleepy Telford, Brian Little and Mann on the front lines played steady driving games. The Blues were led by Ballon and Norsworthy in the backfield while Murray Robinson and Hewgill played nice line games.

Those who names do not appear on this list are asked to report to manager Peter Turcotte.

### INDIAN ART—p. 2

ture of Indian art and civilization. The two seem to be united, as all utility goods are made with care and a sense of beauty. There are many interesting things to be seen, there is quantity, variety, and high quality throughout. It is an exhibition of interest, well worth seeing and studying.

### BEATTY HALL—p.1

most of the fellows are delighted at being so close to the Campus, feeling that both Douglas and Dawson are away in the suburbs.

The dining-room is one of the happiest spots around the University, the reason being that the meals are "par excellence," and second helpings are to be had for the asking, as many residents have already discovered. The chef is "top-notch" and saw service in both ways as an officers' cook. Dining-room chairs could not be purchased in time, but one of the local department stores very kindly lent some chairs, until the new chairs arrive. Later when more equipment is available, it is hoped to serve meals to outsiders at reasonable rates, for the dining-room has a capacity of over 150.

The seventy residents are accommodated in 24 double and 22 single rooms. They are certainly a diversified crowd as all the years and most of the faculties are represented, and residents come not only from all the provinces of Canada but from as far away as Northern Ireland, Bermuda, Trinidad and even South America. Beatty Hall has helped to solve the problem of "where to live" for many veterans, but it is not limited to veterans only and has a number of younger students also. Several veterans are still in the service, on extended leave while their papers are being located.

The most frequently heard comment about the halls is: "I can't afford that, I am not working for George any more." The fees are slightly over the Veterans Allowance for Educational Training, but most of the fellows had enough good sense to save some money while they were on active service. The Hall has been established as a memorial to Sir Edward Beatty,

a former Chancellor of McGill University, who died in the fall of 1943. Sir Edward's rise to fame and fortune, his continual interest in public life and devotion to service, stand as an excellent example for those who reside in Beatty Hall today.

On some appropriate date in the future there will be a formal opening, when the building will be dedicated in an official University manner. In the meanwhile, those who walk along University street and see the newly-inscribed stone will know that the building and the purpose it is serving, is the type of Memorial that Sir Edward himself would have preferred, to provide a place for those to live who wish to learn.

### FACULTY—from p. 1

Appointments in Medicine were as follows: R. G. Baxter, B.Sc., M.D., C.M.; R. P. Howard, B.A., M.D., C.M. and Bram Rose, M.Sc., M.D., C.M., who received G. Rutherford Caverhill Fellowships. Campbell Gardner, M.D., C.M. and G. A. Holland were appointed Demonstrators for the session at Anatomy. Gillean, MacKinnon, M.D., C.M., was awarded a Teaching Fellowship for the session at Anatomy and Constance Friedman, B.Sc., M.Sc. became a Technical Assistant for the session at Anatomy.

Mrs. Olive Lionel, B.H.S. (Sask.) was appointed Assistant in Nutrition for Health and Social Medicine. Appointed as demonstrators for the session at Biochemistry were Lucille Carlton, M.Sc.; Constance L. Friedman, B.Sc., M.Sc.; M. Saffran, B.Sc.; W. S. Bauld, B.Sc., M.Sc. and H. Cohen, B.Sc., M.Sc. Physiology appointments were Dorothy Karp, B.Sc. and P. Kellaway, B.A., M.A. both of whom were made Sessional Demonstrators. C. R. McLean was appointed Demonstrator at Pathology.

Dr. Gai-lan Yang received a renewal of Fellowship in Urology for the Chinese Medical Fellowship. Appointments at Macdonald College: Agricultural Chemistry: D. G. Chapman; Demonstrator and High School Teacher of Chemistry, J. A. Adams; Part time Demonstrator for session, W. E. Cordukes and J. H. Bazar were appointed Assistant Wardens for the Men's Residences. D. E. Swales was made Sessional Lecturer for the session at Plant Pathology.

Appointments in the Faculty of Engineering were as follows: C. A. Robb, B.Sc., D. Eng. as visiting Professor at Mechanical Engineering, For Surveying and Geodesy, M. C. Baker was appointed lecturer for the session, A. D. Moore, B.Eng., Demonstrator for the session and H. F. Armstrong, Emeritus Professor for special work. Appointments in Administration: W. J. Hawkins, B.Sc. (Sask.) as Executive Secretary to Prof. L. W. Bladon; A. J. Major was appointed as draughtsman in the Dept. of Buildings and Grounds.

A. G. Loewy, B.Sc., became Demonstrator in Genetics, Stirling Sugget was appointed Assistant in Statistics for the School of Commerce and Dorothy Ross was placed as Assistant in the Dept. of History. Appointed as Lecturer in Economics for the Evening Courses was Prof. J. P. Day. Prof. H. Tate was made Lecturer in "Intermediate and Final Mathematics" and Miss R. Adeles, B.Com. 4 became Assistant in Accounting. Mr. George W. Frank, B.Com. 4 was appointed Assistant in Accounting.

### DAWSON—p. 1

Council at Dawson, of more advance information of the University's plans, of an efficient system of tutorials, of library facilities and health service. But he emphasized the fact that no differences should be created between veteran and civilian students.

Spencer, who was active in high school student activities, and president of last year's Freshman Class expressed the need for students societies at Dawson, athletic committees, and immediate appropriation of Air Force equipment and facilities.

Contesting for the position of President of first year Science, Leo Kolber and Ward E. Smith were introduced by the Chairman and Stephen McNeely respectively. Kolber's platform centered around the need for greater studying facilities in the dormitories, a canteen, social activities and an athletic committee. In conclusion he said that if and when, a competent administration were elected, they would see to it that Dawson College was not worked dependent on McGill, but in co-ordination with it.

Smyth's program as he outlined it consisted of self-government at Dawson, representation of the McGill Student's Council, organizations of committees to look after canteen, sports, theatre, and library; formation of House Committees to look after the interests of the residents and to run each building, and the establishment of a technical library. "If I am elected, I promise to try to put these into effect, with your help." With these words he ended his election speech.

### RECORD—p. 1

fore the outbreak, but proof of this was never found.

Sir William Macdonald, who originally paid for the building, replaced the Engineering Building which was opened April 27, 1909, but for a while it was feared that the Engineering Faculty might have to be excluded from the University.

Lord Strathcona, who had endowed the first medical school, came to the rescue by providing for the erection of a new medical building, which was opened June 6, 1911.

The destruction of these two buildings by fire, besides taxing McGill's financial resources heavily, destroyed irreplaceable museum pieces, and threatened the university with exclusion of two important faculties.

### DETROIT—from p. 3

three straight World "Serious" games. Newhouse's win left him with a 2-1 record in the post-season classic; in superb form lefty Hal struck out 10 Cubs while yielding but a single walk. Hal's error in the opening frame was the only one of the game. It came on "Peanuts" Lowrey's bunt after Johnson had doubled; Cavaretta followed with a single to drive in Johnson. Despite the error, Hal Newhouse was definitely the star of the game and the series for he won half the games for Steve O'Neill. His 25 wins during the year also was the deciding factor in Detroit's march to the pennant.

The game on the whole was one of the best played in the series and to many Chicagoans it seemed as good as the stuff displayed in pre-war days. 41,500 faithful, crowded Wrigley stadium to set an all-time attendance record for a series as well as to set a new record for receipts. A great crowd watched a great ball game which ended a great series between two great teams in the greatest game of a great country. For that's the only word that can describe the game or series—great!

### SHEPHERD—p. 1

here he is at McGill. Incidentally, Roy is a one-day old civvy, as he only received his discharge yesterday. He is in third year Arts, honouring in Sociology.

"Shep" has some very definite plans for his cheerleading job, and he feels that this is the best way to "instill college spirit". His one ambition is to organize a fully rehearsed and competent cheering team, one that will bring the cheering spirit back to a pre-war level, if not to a higher one.

Next Tuesday night, for the big McGill-Hornets exhibition game, Roy plans to organize a Torch-light parade from the lower campus up to the Stadium. This will require a great deal of help and co-operation from as many students as are interested.

For all those wishing to see the old "college spirit" restored at McGill, Roy is holding a meeting this evening at 5 p.m. in the Music Room of the Union. He hopes that there will be a huge turnout, and he will explain his whole program in detail.

### THOMSON—p. 1

sions will be resumed there in the afternoon.

The purpose of the association is stated as being "founded for the purpose of considering matters of common interest relating to graduate study and research."

The conference will close with a business meeting at which delegates of member institutions will give reports.

Each member of the organization has two delegates to the conference—namely the principal or president of the university and the dean of its faculty of graduate studies and research. McGill's Principal James had originally planned to attend with Dean Thomson but was forced to decline the invitation due to the pressing needs of the university.

### GIFTS—from p. 1

in the Department of Physiology, \$4,000.

Corporation of Professional Engineers of Quebec: Renewal of bursary to a deserving student in engineering, \$100.

Anonymous Donations for a Special Scholarship in Science: \$275. G. H. Duggan: Donation of an additional lot of land on McTavish street.

Imperial Tobacco Company of Canada Limited: Donation of a scoreboard for the Percival Molson Memorial Stadium.

James L. Graham, A.R.C.A.: Donation of an oil painting entitled "Upper Fletcher's Field."

Presentations to the Redpath Library: Mrs. J. B. Fisher, a collection of 72 volumes and seven pamphlets of miscellaneous works; Norman H. Friedman, a collection of 295 volumes of miscellaneous works including the work of Washington Irving (10 volumes), Nations of the World (32 volumes) and the Carlsbrooke Library edited by Henry Morley (14 volumes); District Recruiting Co. M.D. 4, through Lt.-Col. Walter Scott, four colored prints "Yesterday and Today"—Madame Charles de la Tour, Pierre Le Moyne Sieur d'Iverville, Dollard des Ormeaux and Madeleine de Vercheres—also prints of Gen. Sir Harold Alexander, Lt.-Gen. E. L. M. Burns by Reid, 1944, and Maj. Paul Triquet, V.C., by Adam Sherriff Scott, all framed, and University Book Club, 80 volumes, net value \$212.

### REDPATH—p. 1

may be taken off the shelves without having cards signed, and must be put back in their proper place. Near the Library Museum door is a very interesting recent addition to the library. This includes the aid-to-study shelves, which give various suggestions on how to write a thesis or organize material, etc., and current affairs shelves.

The Periodical Room, which is located to the right of the main desk, has a run of prominent magazines and papers, as well as reading material connected with the biographies of important people still living, as an example, that would not be included in the encyclopedias. A Reader's Guide is provided to help locate the material.

The Library Museum itself is a historical display of human literary achievement throughout the ages. The arrangement, which was considered a model, has suffered through the storing away of many irreplaceable articles, due to the possibility of air raids during wartime years; however, it is hoped to be brought back to its former standard in the future.

It was stressed that in case of difficulty students should ask for help at the desk. The librarians in charge are very willing to smooth out any wrinkled foreheads, for a great deal depends on the co-operation between them and the students.

### ORGANIZATION—1

have to be decorated, there will have to be arrangements made for tickets and the orchestra.

Tomorrow, at all the major campus buildings, members of the Red Wing Society will distribute the membership cards, and again the students, especially Freshies who are eager to store up experience in their first year at McGill, are asked to think it over, because everyone is welcome, and as many students as possible are wanted to join. It is reminded that there will be no fees of any kind involved.

A meeting of all members of the Red and White will be called for Monday afternoon for the purpose of planning a rally for cheerleading and ushering for the football game on Tuesday evening at the Stadium, when McGill will play against the Montreal Rugby Football Club.

### I.L.O.—from p. 1

a year (under normal conditions) and each member state sends four delegates: two from the government, one each from the employers and workers. These conferences, on the basis of a two-thirds vote, reach certain decisions, or "recommendations." The only stipulation is that each state must present these "recommendations" to its own respective legislative body. If the legislative body adopts certain "recommendations" it must carry them out.

Among the subjects discussed at these conferences are: hours of work; unemployment insurance; prevention and compensation of industrial accidents; and many other

### R.V.C. CLASS OF '47

There will be a meeting in R.V.C. on Friday at 1 p.m. to elect the class officers for the year 1945-46. The positions to be filled are (1) president, (2) vice-president, and (3) secretary.

MARGARET S. FYLES.

topics dealing with the protection of workers' rights and interests.

When war broke out in Europe, the seat of the I.L.O., situated in Geneva, due to the uncertain conditions, was forced to leave. Montreal was chosen as the temporary headquarters, and work was continued. The original staff of 40 was also brought to Montreal, since they are highly trained in the social and economic fields. An interesting point about the I.L.O. staff lies in the fact that they are drawn from 30 different nationalities, members of an international civil service.

Other activities of the I.L.O. consist in preparing studies and reports on questions affecting labor; sending missions to governments to furnish information on social services, the framing and application of labor legislation; and most important, to prepare International Labor Conventions, and to watch over their application.

On October 15, the I.L.O. will hold its 27th session in Paris, at which they will discuss their future operation in peace time. This, incidentally, will be the first International Conference in Europe since the beginning of World War II.
